PROFESSIONAL SUMMARY

Aspiring Software Developer and current Computer Science Engineering student with a focus on full- stack web development. Proven ability to build functional, real-time applications using React and Firebase. Seeking a Software Development Internship to leverage technical skills in high-stakes problem solving and cloud integration

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering

MES Institute of Technology and Management, Chathannoor, Kollam

Expected Graduation: 2027

- Relevant Coursework: Data Structures & Algorithms, Software Engineering, Database Management Systems.
-

SKILLS

- Languages: JavaScript (ES6+), Python, HTML5, CSS3
 - Frameworks/Libraries: React.js, Vite
 - Backend & Cloud: Node.js, Firebase, Google Firestore, Cloud Integration
 - Tools: Git, GitHub, VS Code, Responsive Web Design
-

PROJECTS

Developer | ResQNow (Emergency Response Web App)

- Built a real-time emergency response platform using React and Firebase, enabling users to send and receive help requests during critical situations
 - Implemented Google Firestore to manage real-time data streams, ensuring seamless handling of concurrent user requests with minimal latency
 - Designed a responsive and user-friendly interface using React and CSS, improving accessibility and user interaction
 - Integrated cloud-based backend services to support scalable and efficient data management
-

EXPERIENCE

Cybersecurity & Ethical Hacking Intern | Genzee Technologies

- Learned cybersecurity fundamentals and basic threat awareness
- Actively building projects and improving development skills
